Travel in London

In May 2013, the RAC Foundation carried out an online survey of 2,000 car drivers in London. Of the sample, 34% live in Inner London\(^1\) and 66% in Outer London\(^2\) (compared to 40% and 60% of all Londoners 18 or over, according to the 2011 Census). This note presents the main results.

1 Transport use by car drivers

Nearly 85% of those surveyed drive a car/van at least once a week. Of these:
- 55% travel as a car or van passenger at least once a week
- 53% use a bus, minibus, coach or tram at least once a week
- 54% use the tube or DLR at least once a week
- 38% use National Rail or the London Overground at least once a week
- 86% walk at least once a week
- 17% use a bicycle at least once a week

1.1 Frequency of car driving by age and location

Figure 1: Frequency of car driving by age

---

2 Outer London: Barking and Dagenham, Bexley, Enfield, Greenwich, Havering, Redbridge, Waltham Forest, Bromley, Croydon, Kingston upon Thames, Merton, Sutton, Barnet, Brent, Ealing, Harrow, Hillingdon, Hounslow and Richmond upon Thames. This corresponds with the ONS NUTS2 classification.
Figure 2: Frequency of car driving by area

2 Journey to work

Figure 3: Travel to work by mode for all car drivers (all modes, not main mode)
Figure 4: Mode of travel to work by age group for all car drivers (all modes, not main mode)

![Mode of travel to work by age group for all car drivers](image)

- **Other**
- **Walk**
- **Bicycle**
- **National Rail / London Overground**
- **Tube/DLR**
- **Bus, minibus, coach or tram**
- **Taxi**
- **Car/van driver or passenger**

Figure 5: Average journey time to work, by mode category
